

# ELLEN A. JANETZKE, M.D., PC

**A TRUSTED, BOARD-CERTIFIED PLASTIC SURGEON FOR 18 YEARS,** Dr. Ellen Janetzke — or “Dr. Ellen,” as she’s known to her patients — uses her exemplary surgical skills for a full range of cosmetic and nonsurgical procedures.

Known for her extreme safety and efficiency in the operating room, Dr. Ellen is able to reduce a patient’s time under anesthesia and decrease their costs in the process.

Breast- and body-contouring are her specialties, in addition to face and skin treatments such as injectables and lasers. Dr. Ellen is known for the ever-popular “Mommy Makeover,” a stomach and breast improvement procedure that’s a great way for mothers to feel like themselves again. “I offer a variety of both nonsurgical and surgical procedures to help my patients achieve a great result,” Dr. Ellen says.

In recent years, she says she’s noticed an increase in the number of men seeking help. Her male patients favor both surgical and nonsurgical treatments to rejuvenate and restore the face and body. Many are interested in liposuction for their chest, abdomen, and waist. Also on the rise is the number of people seeking skin reduction after extreme weight loss. Recommended body-contouring procedures for these patients include arm lifts, lower-body lifts, tummy tucks, thigh lifts, neck lifts, and breast lifts, reduction, and/or enhancement.

Many patients are also interested in noninvasive procedures such as NeoGraft hair restoration, or skin restoration such as BroadBand Light (BBL) laser, Halo laser, injectable fillers, and Botox.

Dr. Ellen performs surgery at four safe, accredited locations, including the Royal Oak and Troy Beaumont Health System hospitals, UnaSource Surgery Center in Troy, and the Beaumont Macomb Surgery Center.

“With all the wonderful options we have, why not make yourself look and feel better by taking advantage of what plastic surgery and Envee Aesthetics has to offer?” Dr. Ellen asks. ■
